PROJECT PROFILE

Nlyte Software

Large Enterprise Health Care Company

NLYTE FACILITATES CAPACITY PLANNING AND REPORTING WITH COMPREHENSIVE ANALYTICS

Introduction

This case study of a large enterprise health care company is based on a March 2016 survey of Nlyte customers by TechValidate, a 3rd-party research service. The profiled company asked to have their name blinded to protect their confidentiality.

> "For us, the top benefits from using Nlyte are: the ability for sequesters to self serve, capacity planning, and reporting."

Organization Profile

The company featured in this case study asked to have its name publicly blinded because publicly endorsing vendors is against their policies.

TechValidate stands behind the authenticity of this data.

COMPANY SIZE: Large Enterprise
INDUSTRY: Health Care

Challenges

Describes the state of their data center management before adopting Nlyte in the following ways:

- Manual and unscalable record-keeping (spreadsheets, Visio diagrams, etc.)
- No single version of truth with limited compliance capabilities

Three biggest data center challenges before using Nlyte were the following:

- Poor capacity planning
- Inability to track and manage workflow processes
- No accurate asset inventory

Use Case

Top criteria for choosing their vendor for data center solutions included the following:

- Ability to manage workflows more efficiently on the data center floor

Found the following Nlyte capabilities to be the most valuable:

- Capacity planning
- Reporting and analytics

Results

Realized the following benefit after deploying Nlyte:

- Detailed location of all data center assets with total number of asset types known
