About Nlyte

Nlyte Software helps teams manage their hybrid infrastructure throughout their organization – from desktops, networks, and servers to IoT devices – across facilities, data centers, colocation, edge, and the cloud. Using Nlyte's monitoring, management, inventory, workflow, and analytics capabilities, organizations can automate how they manage their hybrid infrastructure to reduce costs, improve uptime, and ensure compliance with organizational policies.

Nlyte Software is part of Carrier Global Corporation, the leading global provider of healthy, safe, sustainable, intelligent building and cold chain solutions. For more information, visit Nlyte.com or follow Nlyte on LinkedIn.

Describes the state of their data center management before adopting Nlyte in the following way:

- Manual and unscalable record-keeping (spreadsheets, Visio diagrams, etc.)

Biggest data center challenge before using Nlyte:

- No accurate asset inventory

"Nlyte brought Facilities and DC OPS together."

Top criteria for choosing their vendor for data center solutions included the following:

- Ability to improve capacity planning
- Ability to provide visibility into key business metrics and data visualizations

Found the following Nlyte capabilities to be the most valuable:

- Connection management
- Pre-built integration and connectors

Realized the following benefits after deploying Nlyte:

- Accurate and detailed data center capacity planning with confidence in capacity data
- Centralized insight of all data center activities
